

## **Deloitte : Consulting-Associate Analyst-S21HCAAHM-UG**

**(Last Date to Apply by 28 Jan, 2021 End of Day)**

### **About Deloitte**

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. In the United States, Deloitte refers to one or more of the US member firms of DTTL, their related entities that operate using the “Deloitte” name in the United States and their respective affiliates. Certain services may not be available to attest clients under the rules and regulations of public accounting. Please see [www.deloitte.com/about](http://www.deloitte.com/about) to learn more about our global network of member firms.

### **Description**

#### **Associate Analyst – Job Description**

Are you a quicklearner with the willingness to work with **new technologies**? Do you have an analytical mindset? At Deloitte, we deliver solutions to clients who are pioneers in the fields of technology. Here, innovative practices are designed through world class service.

#### **Work you’ll do**

Associate Analysts at Deloitte are expected to develop strong technical skills in the system/technology area you are working in. As a part of the onboarding process on projects, you are provided with training/awareness aimed at building proficiency in the role. It involves development of technical and behavioral skills as per defined proficiency levels (as per the Expectation Framework), understanding of the Firm specific tools and methodologies and focused capability building on communication excellence as per Deloitte standards.

- Work on projects of moderately complex scope
- Report on common sources of technical issues or questions and make recommendations accordingly
- Communicate key findings to project team leader and extended project network (as applicable)
- Work towards improvisation and monitoring - delivering better value to the customer
